

**With the HairArt H Series Irons You will be able to do various hair styles that suit your mood. Here are some sample techniques.**

Remember to always start with cool, towel dried hair. Do not use on wet hair. Use higher heat for thick or unruly hair and lower heat for fine or damaged hair.

**SOFT BOUNCY CURLS:**

**1**

Starting at roots, glide iron through a small section of hair to soften hair

**2**

Clamp hair section with the iron

**3**

Turn iron upside down while hair is still clamped

**4**

Pull section over top of iron

**5**

Continue to glide iron through hair (see note below) Get different types of curls by changing section size and angle of iron

**SPIRAL CURLS:**

**1**

Starting at roots, glide iron through a small section of hair to soften hair

**2**

Wrap small section of hair around finger

**3**

Gently slide finger out

**4**

Carefully clamp curled section with iron

**5**

Release and get nice spiral curls

**SASSY FLIP-OUTS:**

**1**

Starting at roots, glide iron through a small section of hair

**2**

At the end of the section, twist iron up for flip-outs, twist iron inwards for flip-ins

**3**

Repeat process on other section of hair

**4**

Continue until you achieve desired result

**Note:**

For best results, keep hair section wrapped snugly around the iron. Do not pull too hard on hair section.
